HEIKES ==HUNTSVILLE==TREES.

# The Huntsville Wholesale Nurseries

MARCH

Huntsville, Ala.

1916

FOR THE TRADE ONLY.

# The Huntsville Wholesale Nurseries

MILTON MOSS, PROPRIETOR.

References: W. R. Rison Banking Company, Huntsville, Ala., and the Mercantile Agencies.

## HEIKES HUNTSVILLE TREES.

**MARCH 22, 1916.**

Except where prices are agreed upon these quotations are subject to change without notice.

The usual Terms and Conditions govern these quotations.

## Combination Car Lots.

Prices will be based on delivery to station at Huntsville, the price of boxes to be added. In car lots in bulk no charge will be made for packing.

To those who order in less than car lots and wish to take advantage of our plan to deliver to Distributing Points we must add to the prices quoted in this list the cost of freight from Huntsville to these points on a car lot basis, and we will then prepay the freight to the point of distribution. This plan insures low freight rates and quick time. Such orders will be packed in boxes at Huntsville and combined to make up car lots and shipment promptly made to distributing points and forwarded from there over the various railroads to destination. Car lot orders will go direct from Huntsville to destination, and can be shipped at any time after September 20th to March 15th, except a short time in mid-winter.

## Distributing Points.

We are making St. Louis, Mo., Rochester, N. Y., and Philadelphia, Pa., distributing points for orders in less than car lots, to be shipped from Huntsville on the dates named below. No charge for drayage or transfer at these points.

FOR ST. LOUIS—Shipments from October 25th to December 10th, and in Spring

FOR PHILADELPHIA—November 1st and in Spring.

FOR ROCHESTER—November 1st and in Spring.

This offer to ship to distributing points will not apply if shipment is required at other than the above named dates. It sometimes happens that we cannot arrange to make up combination car lots to suit all strictly within the date named. It will be necessary to arrange the dates for shipments as orders are received

## PEACH

## One Year. On Peach. Leading Varieties.

Our peach trees are budded on seedlings grown from North Carolina natural pits. They are free from Aphis, Root-Knot and Crown-Gall. We can supply beautiful large, medium and small-sized trees. The land upon which our peach trees are grown produces a well-matured tree, with fine fibrous roots. The San Jose Scale, Yellows and Rosette are unknown in this section and we have been careful not to bring in any buds from affected localities.

## VINES

### KUDZU

We have a fine stock of plants this year.

	Each
In lots of 500 or more.....	3½¢
Less than 500, in 100 lots.....	5¢

The Kudzu Vine is hardy, grows with remarkable rapidity—from 40 to 60 feet in a single season after the root is well established—and its foliage, consisting chiefly of very large leaves, is luxuriant and healthy. It is now being extensively planted both in the North and South to cover arbors and verandas. In the North the plant dies to the ground in the Winter.

## ROSES

See separate list for our surplus, which is now all in Rochester, N. Y.

## Terms and Conditions Governing Quotations in the Price List of the Huntsville Wholesale Nurseries.

**RATES.**—As we send this list to the trade only, we make the difference in prices between the 10, 100 and 1000 rates very slight—simply sufficient, as a rule, to cover the difference in the expense of handling in the smaller numbers. We uniformly tie in bunches of 10, when consistent with the order, and we suggest to our customers to make their orders for varieties in multiples of 10 as far as practicable. Orders for 50 and not over 300 trees, if for not less than 10 of a variety, will be charged at the rate per hundred. Orders requiring 300 trees or more, and not less than 10 of a variety, will be filled at the lowest quoted prices. Orders for less than 10 trees of one variety will be charged at the rate per ten.

**SEASON.**—Our packing and shipping season begins by the 20th of September and continues until the first of March.

We have great advantages to offer here in early shipments for the North in Spring. We do not accept orders for trees we do not grow, as we never buy trees to sell again. You can depend upon us for fresh dug trees. Each order is taken up separately and not until it is wanted for shipment.

**SHIPPING DIRECTIONS.**—We respectfully beg our patrons to furnish us with explicit directions as to shipping, and the mode of conveyance by which they desire trees forwarded. When no particular directions are given, we forward according to the best of our judgment. *But in no case do we assume any responsibility as to safe delivery and condition of trees and plants after a proper shipment by us.*

**RELEASE.**—When prepayment of freight is not required we will Release and Guarantee, and take forwarder's receipt and mail to consignee. It is left to the option of the shipper of trees over some railroads whether he will release them or not under the clause "Value less than \$5.00 per 100 lbs." If released under this clause the freight is less on roads governed by this classification, and we will assume it to be proper to make this release, without reference to the value of the trees, unless instructed to the contrary. This clause does not apply upon roads under some of the district classifications, and because of this confusion we will not be held responsible for any oversight to release, unless instructed by our customers. Claims for delay or loss must be made to the forwarders.

**PACKAGES.**—The cost of package must be added to the prices quoted in this list as follows: Boxes 30 inches square, from 7½ to 9 feet long, as the trees may require, each \$2.50; boxes 24 inches, \$2.00; boxes 18 inches, \$1.50; bales from 25c. to 75c. each.

**PACKING.**—Goods will be packed in moss or "Shingle Tow," and especial care taken to insure their arrival in the best condition.

**ASSORTMENTS.**—We do not require customers to take an assortment they do not wish, but will sell one variety alone if desired. If any substitution can be allowed, either in grade or variety, it should be so stated when making the order. As a rule we do not substitute without permission.

**CAUTION.**—We accept all orders upon the condition that they shall be void should any injury befall the trees from frost, hail, storm, fire, or other causes over which we have no control.

**TERMS.**—Cash. When desired, we will allow 30 to 60 days from date of shipment to responsible, prompt-paying customers. Parties with

whom we have had no business transactions will save time by sending reference with order. We wish it expressly understood that payment is expected from the first collections made, and the time named is only intended as so many days of grace in which to make returns. To northern customers who wish to lay in stock for Spring trade we will ship late in Fall or early in Spring and allow time for payment till May 15th. If shipment is required in the Fall for Spring use, a note is to be given upon receipt of the trees. We do not allow any discount for cash, but we make our prices low to demand cash or prompt returns. In orders when the time is not mentioned, 30 days is to be understood. Interest at the rate of 8 per cent per annum must be paid on over-due accounts. Should prices be changed, either higher or lower, during the season, the prices ruling at the time the order is made are expected to stand.

**FORMS OF PAYMENT.**—All bills are payable at the office of the seller, and remittances should be made by drafts, on New York, Chicago or St. Louis, or by money orders on some Express Company, or by postal orders. We will, however, accept checks from those of our customers who may be located at places having no banking, express or postal facilities, provided they make them in every case payable "with exchange," or add ¼ of one per cent to the amount of the bill for the cost of collection.

**GRADES.**—We grade very carefully, in some cases by caliper, in others by height. When graded by both caliper and height the caliper must govern, as the height then named is only to be considered approximately. When graded by height or caliper we include the lower number and exclude the higher. Instance: in a grade of 4 to 5 feet trees the 4 feet trees are included, but not the 5 feet trees. If 5 feet trees are wanted the 5 to 6 feet grade must be ordered.

**GUARANTEE OF GENUINENESS.**—While we exercise the greatest diligence and care to have all our trees, etc., true to label and hold ourselves in readiness, on proper proof, to replace all trees, etc., that may prove untrue to label free of charge or refund the amount paid, it is mutually understood and agreed to between the purchaser and ourselves that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally received for said trees, etc., that shall prove untrue.

**ACCEPTANCE.**—Notice should be sent to us by telegraph, at our expense, if there is any cause of complaint, or should the trees be refused, stating reasons. Claims for deduction, from whatever cause, will receive consideration only when made promptly upon the receipt of the trees. If trees show any signs of shrivelling upon arrival they can usually be restored by being thoroughly watered and buried entirely under the ground for two or three days. Should there be any frost in the trees upon arrival they should not be removed from the boxes until the frost is all out. The box should be placed in the cellar or protected in some other way. The presence of frost in the boxes is not to be considered an evidence of bad condition, as we pack to secure the trees against damage, if the frost is allowed to come out in the natural way. Goods will be considered accepted if removed from the boxes in which they are packed without notice of complaint to us and without our orders for their disposition.
